

## Career & Technical Education

Prepared by Thalea Longhurst

The Legislature has requested the Board to make a report to the Public Education Appropriations Subcommittee on the programs and regulatory functions performed by Board staff during the upcoming 2016-17 school year. The Board is required to include an evaluation of which service functions could be passed on to local education agencies, regional service centers, or provided by the Board for a fee, and which service functions should remain at the state level.
