What we do?

The Data & Statistics department acts as a supporting entity in ensuring compliance with numerous Utah codes, legislative requirements and Board rules.

- 53A-1-603 Duties of State Board of Education
- 53A-1-301 Superintendent's Annual Report, statistical and financial data
- 53A-1-1103 State Board of Education to establish school grading system
- 53A-3-602.5 School Performance report
- R277-487-1 Public School Data Confidentiality and Disclosure
- R277-484-3 Deadlines for Data Submission.
- R277-419 Pupil Accounting
- R277-406 K-3 Reading Improvement Program and the State Reading Goal
- Coordination of the EDFacts report, including Fall Enrollment and other information by LEA
- Design and management of USOE Data Gateway for both public and LEA access

State funding (Data & Statistic Department)
\$460,300

SB 34-2014 Legislative Session (Statewide Data Alliance and Utah Futures)
\$355,000

HB 68-2015 Legislative Session (Student Privacy Study) Chief Privacy Officer
\$185,000

New IES SLDS Grant Year 1 \$1,905,833.00

USOE Data Gateway

Data & Statistics

Utah's Educational Data Gateway

The Utah's Educational [Data Gateway](#) is a resource provided by the Utah State Office of Education (USOE) that allows the public and school personnel to access education-related data. USOE uses data to analyze student performance and inform educational improvements at the policy, state board, and classroom level.

Accountability and transparency in education data is important for parents and the community as a tool to help inform decisions about their student's educational choices. The reports found here in the Data Gateway are designed as a tool to provide that information to help concerned individuals see the results of the measurements of student learning outcomes.

At the same time, the performance data and personally identifiable student information data needs to be kept safe, private, and follow federal and state standards and laws, including FERPA, to maintain student data security and privacy. While the data used by the USOE and Local Education Agencies (LEA) is comprehensive, the data made available to the public is masked to avoid unintended disclosure of personally identifiable information at summary school, LEA, or state level reports.

The screenshot shows the Utah State Office of Education Data Gateway website. At the top, the Utah State Office of Education logo is on the left, and "Login" and "Register" links are on the right. Below the logo is a dark red banner with "DATA GATEWAY" in white text and a help icon. A navigation bar contains links for "Accountability Reports", "Data Catalog & Resources", "Data Reports", and "News & Updates". A search bar with the placeholder "Find a School..." and a search icon is present, along with an "Advanced Search" link. The main content area is divided into two columns. The left column has two sections: "Assessment" with links for "Compare Schools", "SAGE", and "Student Growth"; and "Accountability" with links for "PACE & School Federal Accountability Report (SFAR)", "School Grading", and "State Accountability Results for All Schools". The right column has a section titled "Utah's Educational Data Gateway" with three links: "What is the Data Gateway?", "Data Gateway Training", and "Data Privacy".

A report to the Utah Board of Education in May looks at 2007 graduates enrollment and retention in institutions of higher education.

The Utah Data Alliance (UDA) is partnership between six Utah agencies who provide a statewide longitudinal database linking K-12 education, postsecondary education, and workforce data. The UDA partnership provides tools and analyses to facilitate data-driven decision making for education. The UDA provides educators and other decision makers analyses and evidence for program and service improvement.

HB68 Student Privacy Study and Chief Privacy Officer

HB64 Student Privacy Study – requires the State Board of Education to develop a funding proposal and make recommendations to the Legislature on how the State Board of Education and the Legislature can update student privacy laws in statute and in board rule;

- requires the State Board of Education to designate a chief privacy officer; and
- requires the State Board of Education and the chief privacy to report to the Public Education Appropriations Subcommittee.

New Federal Grant:

Enhancing Utah Data Alliance College and Career and Evaluation and Research Capabilities through Web Technology

On October 1, 2015 USOE was awarded a Institute of Education Sciences Statewide Longitudinal Studies System Grant. This funding will be used to expand Utah's current longitudinal system, (Utah Data Alliance) and fulfill two priority areas outlined in the grant application. The award period on the grant is as follows:

10/01/2015-9/30/2016	\$1,905,833.00
10/01/2016-9/30/2017	\$1,442,650.00
10/01/2016-9/30/2017	\$1,574,650.00
10/01/2016-9/30/2018	\$1,574,650.00

The two priorities upon which the Utah State Office of Education intends to focus on are College and Career, and Evaluation and Research. The College and Career Priority focus is to develop feedback reports for institutions and stakeholders on the state of Utah students' outcomes and examine the factors that influence college and career readiness among Utah residents. The Evaluation and Research Priority focuses on expanding accessibility and use of the state longitudinal data system (UDA).

Data & Statistic Wish List

1. Raises for Data & Statistic staff.
 - 5% for two Research Analysts and Executive Secretary
 - 1.5% for one Research Analyst and UDA Grant Manager
